

UNCOMMON EXCELLENCE. UNCOMPROMISING CARE.

Each year, U.S. News & World Report recognizes the very best hospitals in America.

This year, three UNC Health Care hospitals ranked among the top 20 hospitals in North

Carolina. Eight clinical specialties at UNC Hospitals were nationally ranked, with four specialties ranked best in the state, including the #1 adult cancer program in North Carolina. For us, the rankings confirm the incredible work

and dedication of our faculty, community providers and staff. Our vision is for UNC Health Care to be the nation's leading public academic health care system. We aim to care for every patient who walks through our doors with empathy and expertise while striving for the best possible outcomes.
