

UNC
SCHOOL OF MEDICINE

Academy of Educators

Presents

Effective Lecturing

Lead by **Ed Kernick, DPM** and **Todd Zakrajsek, PhD**

Ed Kernick, DPM

Assistant Professor of Cell and Development Biology at UNC-Chapel Hill

Todd Zakrajsek, PhD

Associate Professor in the Department of Family Medicine and Executive Director of AOE at UNC-Chapel Hill

Even with the emphasis on active and engaged teaching, lecturing remains a critical and popular method of teaching and learning. Effectively conveying large amounts of information in a relatively short period of time does take proper planning and delivery. During this 50-minute lunch session Dr. Kernick and Dr. Zakrajsek will present essential steps for leading an effective didactic presentation. They will also provide practical tips that may be incorporated into any lecture. The lecture method is not dead; it just needs a little resuscitating.

Lunch will be available for anyone who RSVPs for this event through the AOE website as well as CME credit.

Tuesday, September 3, 2013

12:00-12:50pm

Bondurant Hall G010
