Returning Supplies For Credit

Effective immediately in Central Distribution you can only return items for credit that are within two months of the expiration date. Any items with less than two months from the expiration date will not be credited to your department.

Prices Changes For Adult And Pediatric Intubation Kits

Central Distribution currently charges \$5.00 for the Adult and Pediatric Intubation Kits. The actual cost to build these kits is \$37.05 for the adult and \$39.62 for the pediatric. We do not charge this entire amount because not every item is used during an intubation. By evaluating the restocking of these intubation kits, we have determined that it costs an average of \$17.73 for adults and \$17.11 for pediatric. Therefore, effective July 1, 2013, CD is adjusting the price for the adult and pediatric intubation kits to reflect the average usage. For budgeting purposes, please look at your requisition history for these two items to determine the quantity to budget at the new price. The Adult Intubation Kit is Item # 002497 and the Pediatric Intubation Kit is Item #002498.

High Fives And Praises

Give Us Your High Fives and Praises

Management and staff would like to know from our customers how we are doing. We want to recognize outstanding staff service and performance as well as suggestions for improvement in Supply Chain Services. Supply Chain Services includes the following: CD- Receiving, CD- Storeroom, CD-Administrative Office, Linen Services, Patient Equipment, and Mailroom. Please send your praises, comments, and suggestions to us. They can be sent to any of the following management staff members:

Belinda Edwards (*CD, Receiving and Linen Manager*) - bkedward@unch.unc.edu or cdreceive@unch.unc.edu

Mike Baker (*Patient Equipment Supervisor*) - jmbaker@unch.unc.edu

Kenneth Dark (*Mailroom Supervisor*) - kdark@unch.unc.edu

Window Orders And Bulk Orders

The window in Central Distribution is designed to give emergency supplies needed for patient care when the department is out of stock. Departments are encouraged to only come to the window to get a maximum of five items per day. If you believe that some items on your par need to be added, increased, or decreased please let us know so that we may immediately change your par. We also encourage the departments to please check your stock daily and place your orders in Lawson when stock is low and not depleted. We request that units should communicate with each other and see if all orders for your department can be batched instead of multiple orders coming to Central distribution daily for your department. A memo has been sent to every bulk order delivery location (**departments or locations that are not in a patient unit**) showing your scheduled delivery days. This memo is not for in patient departments that Central Distribution inventories daily but are inventoried by their own stock clerks or HUC's. Central Distribution wants to provide every department with quality customer service everyday so your participation in this is greatly appreciated.

This memo is in reference to departments that request a bulk order. **A bulk order is an order for a department that is not in a patient unit.** Due to the high volume of bulk orders requested daily we have assigned a delivery schedule to each of the departments. We believe this will help us provide quality service to your department as well as others. This will allow us to improve delivering the bulk orders on time to the departments and eliminating any errors of items received.

Your help in following this schedule is greatly appreciated as it will help us provide our customers with timely delivery of supplies needed to provide exceptional customer service. If you have any further questions or concerns please do not hesitate to contact us.

Thank You,
Central Distribution

Service Type Issues For Linen

7 days a week from 7am to 11pm calls for service type issues for the Linen Room will be available through the Service Response Center (966-5611).

Where To Find The CD Catalog

The CD catalog can be found on the Intranet. Go Hospital Departments then to Materials Management and click on CD. This catalog is updated monthly. It includes the Lawson number, description, UOM (how CD sells the item), manufacturer and their product number and the average cost.

Where To Find The Insider

Each month The Insider is available on the UNC Healthcare Intranet site under Hospital Departments then under Material Management. It is also available in the Employee News. You can also ask for it at the CD window on the ground floor.

Inspired Questions & Answers

Readers Write

The Insider welcomes any suggestions and questions. Please submit any suggestions or questions to Charlene Sawyer via e-mail at csawyer@unch.unc.edu, or call 6-1139. You may also submit names you would like to add to or remove from our distribution list.
